-

Experience

Warehouse Management

UI Developer & Designer | 2023 - Present

- Redesigned and modernized the Warehouse Management System using Angular 17, Bootstrap 5, HTML5, and CSS3, improving overall usability, navigation, and maintainability.
- Built complete CRUD functionality with advanced features such as Excel data upload/download, PDF report generation, and dynamic theme configuration including user-specific colors and dark mode.
- Improved operational efficiency by optimizing UI workflows and integrating real-time data automation through APIs, resulting in better warehouse accuracy and smoother user experience.

Strategy Execution

UI Developer & Designer | 2023 - Present

- Redesigned the project UI using Angular, Bootstrap, HTML5, and CSS3.
- Developed screens and forms and integrated APIs with Excel to automate data processes.
- Improved strategy execution and enhanced overall operational efficiency.

Education

SBTET

Civil Engineering | 2018

JNTUK

Civil Engineering, CGPA: 7 / 10 | 2022
